1. The present applications have been filed by the appellant seeking recall of orders dated 09.04.2024 and 03.08.2017. The appellant also seeks rectification of the purported factual errors in the order dated 09.04.2024.

2. Having perused the contents of the applications and heard the appellant, who appears through video-conferencing, we find that despite his review petition having been dismissed, the appellant is again seeking to re-argue the matter on merits. Further, we find that even under the garb of seeking correction of factual errors, the appellant is only seeking to re-agitate the grounds raised in the appeal. We, therefore, find no merit in the applications, which are, accordingly, dismissed.
